Summer Research
Department of Physics & Astronomy
Georgia State University

Spend the summer getting paid to learn hands-on skills in physics or astronomy!

Research Topics Include:
• Astronomy: Extragalactic, Stellar, Exoplanets, Solar, Instrumentation.
• Physics: Condensed Matter, Nuclear, Atomic, Biophysics, Neurophysics, Education Research.

Pay starts at $10.00 per hour for up to 40 hours per week, and research positions generally run for twelve weeks from mid-May to mid-August.

Astronomy applicants are automatically considered for the Raghavan Astronomy Student Fellowship (two will be awarded per year).
